The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites "polybutyl vinylal" on two occasions. The examiner is unfamiliar with this species.

Claim 1 recites a "solvent selected from alcohols, polyhydric alcohols and glycol ethers" defined by formula (1). It is not seen how this formula allows for alcohols which are not polyhydric alcohols or glycol ethers.

Claim 2 recites a "glycol ether represented by formula (1)". Formula (1), however, allows for R₂ to be H. In this case the formula does not represent a glycol ether.

Claim 4, 5, 7, 9 and 10 recite "polyvinyl butyral". It is not clear whether applicants intend a distinction between this species and the "polybutyl vinylal" of claim 1. If no distinction is intended then simultaneously claiming polymerization degrees above and below 900 is indefinite.

Claims 11 and 12 recite a "ball paint pen". Do applicants intend "ball point pen"?

Appropriate clarification is required.
